Self Check - How are you feeling about your work? How do you feel about regional events? Are you noticing your mind and body getting tired? Hydration? Sleep? If you're not doing well, please talk to someone. • Watch for mental fatigue - smoke, camp life, inadequate sleep, and long nights on the fire incident all contribute to brain drain. Take breaks when required, pace yourself, stay hydrated. • Work on uneven terrain – assess your footing with every step. Be aware of changing conditions from day to day even if you were working in the same area as before.

I Chose to Look the Other Way

I could have saved a life that day,
But I chose to look the other way.
It wasn't that I didn't care
I had the time, and I was there,
But I didn't want to seem a fool
Or argue over a safety rule.

I knew he'd done the job before,
If I called it wrong, he might get sore
The chances didn't seem that bad,
I've done the same, he knew I had,
So I shook my head and walked on by,
He knew the risks as well as I,
He took the chance, I closed an eye,
And with that act, I let him die.

I could have saved a life that day,
But I chose to look the other way.
Now ever time I see his wife,
I'll know I should have saved his life.
The guilt is something I must bear.
But it isn't something you need share.

If you see a risk that others take,
That puts their health or life at stake,
The question asked or thing you say,
Could help them live another day.

If you see a risk and walk away,
Then hope you never have to say,
I could have saved a life that day.
But I chose to look the other way.
