

Wildfire After Action Review

Region: South Slave Date: JULY 1, 2019
Fire Number: SS017 Who was Debriefed: _____

Did you get a briefing prior to being dispatched and was it useful? <small>ie: was the weather and fire behaviour expected, were they briefed about the potential terrain and area?</small>
<u>Yes</u>
What operational concerns do you have? <small>Discuss state of the equipment, transport to the fire, camp location and communication.</small>
<u>A bolt vibrated off from the pump, but was still able to use it.</u>
Were there any safety concerns? <small>Please fill a hazard/incident report if necessary.</small>
<u>When it was windy some tree's fell, but no one was hurt.</u>
What went well?
<u>Everything went well. The E.F.F.'s were a good help.</u>
Is there anything you would have done differently?
<u>Have a coteman stove when we first got to the fire.</u>
Are there any lessons learned? <small>Good or otherwise.</small>
<u>No.</u>
