

FMD AFTER ACTION REVIEW

Region: <u>Sahtu</u>	Date: <u>03/07/21</u>
Operational Period: <u>10:00 - 19:00</u>	Group Briefed: <u>Sahtu-3</u>
Fire number: <u>VQ 002-21</u>	Location: <u>FGH</u>

What was planned?

IA, right flank towards the head, cut pad and hose lay while waiting for hose in second trip. Camping Gear + IA kit prepared + waiting. Bucket support present

What was fire weather and fire behaviour?

26° W 15G30 with winds increasing and shifting to the North.

What actually happened??

30 ft. Blackline along right flank working towards head with S-1-1 guiding the bucket for drops.

Safety issues or concerns:

hazards and incidents require separate reporting on the appropriate form

Lack of stable comms with base. A little more tidying up escape route/hose lay; slightly more room for helipad. Pump-site housekeeping.

Follow up or corrective actions:

Establish whip-antenna in camp for radio comms. Have a helper assist saw operator cleaning line/escape route. Move empties from pump site to camp site.
