

Wildfire After Action Review

Region: North Slave Date: 09/10/25
Fire Number: 2F052 Staff Present: RAE-3 & YK-15

1. What was the plan? Talk about size-up, each person's roles going in to the fire.

- Fire spotted in between whati road & Edzo
- CREW & Tankers to action fire

2. What Actually Happened which caused us to deviate from the plan, and why did that happened?

- NS-3, NS-4, NS-5 & NS-8 went to man up the fire.
- Water was a struggle so Bladders had to be used, was had to keep them filled since site for helicopter was far away
- Tankers actioned for 3 days
- EFF crew later showed up to aid
- Guys were pulled off to go help on 2F048 Whati incident
- ~~RAE-3~~
- 2F052 was not scanned & later re lit. due to Drought codes being in the ~~RAE-3~~ 900's that caused a struggle for crews to get the deep burn,

3. What are we going to do better next time?

- Scan fire as soon as possible
- Request for more crews so we are not pulling crews off ~~RAE-3~~ fire's that are not called out

Facilitated by: AJ Lawrence Manager Approval: _____

This form must be completed within 24 hours of action on a fire ending and must be approved by the Manager of Forests and uploaded into the fire file in SPARCS.

Fire crews, aircrew, clerks, warehouse staff and supervisors should all contribute to the AAR whenever possible.

Only one form per fire.

To add additional information use the back side of this form or attach a piece of paper.
