**Wildfire After Action Review**

Region: ~~XXXXXX~~ North Slave

Date: ~~09/10/25~~ ~~09/11/25~~

Fire Number: 2F054

Staff Present: YK-15 & NS-2, BD-3

1. What was the plan? Talk about size-up, each person's roles going in to the fire.

While out on a patrol to 2F024 to check VARS on the way back 214 radioed us that some hiker's spotted a fire that was putting off white smoke. So in PNZ, YK-15 plus NS-2 (14.4) went to action the fire. Got to fire

2. What Actually Happened which caused us to deviate from the plan, and why did that happened?

- We diverted to the new fire from Hearn Lake area.
- Got over prelude lake & noticed the smoke we didn't have any gas from starting sprinkler systems so we picked one Jerry can from the helipad [ETA 5min to the fire & back].
- Got back to the fire unloaded all the IA gear we needed & then set up the bucket to do some bucket drops.
- Having to grab the gas at the helipad

3. What are we going to do better next time?

- Have a extra gas with us for ~~same~~ scenario

Facilitated by: AS Lawrence      Manager Approval: \_\_\_\_\_

This form must be completed within 24 hours of action on a fire ending and must be approved by the Manager of Forests and uploaded into the fire file in SPARCS.

Fire crews, aircrew, clerks, warehouse staff and supervisors should all contribute to the AAR whenever possible.

Only one form per fire.

To add additional information use the back side of this form or attach a piece of paper.
